🚀 PROJECTS

Dakul Tech

I built responsive landing page from stratch using HTML, CSS, Bootstraps and JavaScript.
It has both About us and Contact features to enable users get more information about the landing page.

Weather App

I developed an easy to use weather app with JavaScript and weather forecast API

Buy and Sell

It's a cryptocurrency exchange landing page that generates $ rate update from coingecko API.

To-do App

A to-do-list app with great UI/UX simply built with raw JavaScript
